

One of the best ways to protect your retirement savings is to set aside some money in a savings account in case of an emergency—that way you won't have to jeopardize your nest egg.

Start holding back a portion of every paycheck into a savings account. That way when an emergency comes up you will be better prepared.

When you leave your employer, you have a great option for your savings. You can leave your money right where it is and continue to enjoy the great benefits of the plan.

If you have a new employer, you can roll it over into their plan.

But whatever you do, don't jeopardize your financial future by taking your money out of your plan and spending it.

For more information on making changes to your plan contact your plan provider or human resources.
